Our Mission: Autism Care Today is a national nonprofit 501(c)(3) organization whose mission is to raise awareness and provide treatment services and support to families to help their children with autism be able to achieve their full potential.

WHAT WE ARE ALL ABOUT...

Autism Care Today’s goal is to introduce and help facilitate early and on-going treatment by providing the necessary resources (including referrals, funding and guidance) to individuals with autism and their families throughout the United States. Studies demonstrate that early and intense intervention is important when treating individuals with autism, yet sadly very few of the effective treatments are covered by medical insurance and families are often relegated to piece together a treatment program for their child via multiple funding sources. Often, children with autism must go without vital interventions due to financial constraints.

FAMILY TESTIMONIALS

I’m at such a loss for words. All of the time and love from Autism Care Today foundation... I would have never imagined that I would have received such an embrace. For the first time tonight, I drove. I just drove. No fears. No worries. I just drove...

- The Brown Family

There are angels on this Earth. We never know the form they are going to take. But we know through the kindness of strangers that they are there. Every day we experience so many trials it is hard to remember good things are still happening. This organization is one of those “good things.”

- Camille & Caragh’s Family

Since 2005, Autism Care Today has helped more than...

1500 families

1.85 million grant dollars

- Autism Care Today Awareness Program
- Safety Today
- Applied Behavioral Analysis
- Assistive Technologies Program
- Medical Help Today
- Special Needs Summer School
- Social Skills Learning Program
- Autism Care Today for Military Families
- Autism Care Today Español
OUR HISTORY...

Autism Care Today is the brainchild of several passionate people who believe that access to early, effective treatment is vital for individuals with Autism Spectrum Disorders. Together with Dr. Doreen Granpeesheh, a leading provider of therapy to autistic children with over 25 years of experience, this group created Autism Care Today in 2005 to do just as the name implies – take action immediately to treat autism. With an active board and a small staff, Autism Care Today has steadily grown since its founding.

Not only does Autism Care Today continue to distribute funds for treatment services but Autism Care Today has also launched the first nationwide campaign to help military children who have autism as they have unique challenges. Military families must fight a war on two fronts, one overseas and one for their loved one with autism. This campaign is called Autism Care Today for Military Families (ATMF).

In addition, Autism Care Today builds awareness that effective treatments for children with autism do work. We do this via providing parental resources, news articles, blogs, and television appearances.

MAKE A DIFFERENCE

Autism Care Today relies on the generosity of its many supporters and volunteers to further its charitable purposes. Gifts of all sizes are needed and appreciated. Become an Autism Care Today champion today and make a contribution.
